Presentación

Obsessed with numbers and personal productivity. Triathlon enthusiast. Exploring technology since 2009 from Murcia.

More than 16 years dealing with technological developments in a broad sense. Outstanding competences in software engineering, web applications, signal processing and simulation (mainly for underwater acoustics), and communications. Continuously improving my understanding of data and artificial intelligence with an applied approach, supported by my background in mathematical engineering.

Designing projects, developing products and services, managing deadlines, budgets, and clients... all with software development as a cornerstone.

Grateful for having had the opportunity to work with intelligent people, of different natures, characters and abilities, which has pushed me to empathize and always try to get the most out of it individually and as a team.

Mis habilidades

Pensamiento analítico

Inteligencia emocional

Gestión de equipo

Mis buenas prácticas

As an individual developer I love task automation and code refactoring. I have a hard time sleeping if I don't complete a task as cleanly and efficiently as I know how.

I also lead the SCRUM methodology in my company since 2015 with the main objective of optimizing the productivity of the technological team. Always adapting to our real needs and applying constant continuous evolution. Also, I firmly believe in fun work dynamics to improve productivity.

Tecnologías y herramientas

CONTROLO DE

AWS / Bitbucket / C++ / Django / Docker / Git / Github / Linux / Matlab / Nginx / NodeJS / PostgreSQL / Python / Vue

EXPERIENCIA/CARRERA

Marine Technology Centre

CTO

feb 2021 — HOY (4 años y 8 meses)

Leader of a multidisciplinary human team aimed at developing technological solutions that improve the sustainability of the marine environment at the Naval and Sea Technology Center.

TECNOLOGÍAS Y HERRAMIENTAS

Windows / Jira / Bitbucket / Ubuntu

Marine Technology Centre

— IT Manager

sept 2017 — ene 2021 (3 años y 5 meses)

Leader of the software development area, focused mainly on the digitization of processes using web applications.

TECNOLOGÍAS Y HERRAMIENTAS

Django / Laravel / AWS / Docker / SQL / Git / Bitbucket / Vuex / Ubuntu

Marine Technology Centre

— Project Manager

abr 2013 — ago 2017 (4 años y 5 meses)

Management of projects both public and private financing. Attention to deadlines and costs. Review of technical detail.

TECNOLOGÍAS Y HERRAMIENTAS

Microsoft / Microsoft Excel / Latex / Adobe Suit

Marine Technology Centre

— Research Technician

feb 2009 — may 2013 (4 años y 4 meses)

Design and development of technology-oriented R&D projects. I have dealt with areas such as electronics, communications, signal processing or software development.

TECNOLOGÍAS Y HERRAMIENTAS

C / Matlab / Arduino / Raspberry

EDUCACIÓN/GRADOS

Grados

International University of La Rioja

— Master's Degree in Engineering Mathematics and Computation

jul 2023 — HOY (2 años y 3 meses)

To deepen in the design and use of new mathematical models that can be used in any field of industry or business.

TECNOLOGÍAS Y HERRAMIENTAS

Python / Git / Matlab / Latex

Polytechnic University of Cartagena

— Master's degree in information and communications technologies

oct 2009 — sept 2010 (12 meses)

It aims to train researchers with a critical spirit in the broad sense of the word, capable of producing quality doctoral theses. In addition, it seeks to offer a formative continuity of excellence, both in teaching and research to students from our environment who wish to continue along the university teaching or research path or with other vocations for which this higher education is required.

TECNOLOGÍAS Y HERRAMIENTAS

C++ / Matlab / Latex

Polytechnic University of Cartagena

— Telecommunications Engineering

sept 2002 — sept 2008 (6 años y 1 mes)

Engineering that solves signal transmission and reception and network interconnection problems.

TECNOLOGÍAS Y HERRAMIENTAS

R / Java / C++ / XML / Matlab / Pascal / Ubuntu / Cisco / DNS / Delphi

Technical University of Munich

— Erasmus Scholarship - Electrical Engineering and Information Technology

sept 2007 — jul 2008 (11 meses)

The program combines knowledge of specialist and methodological fundamentals with options to select individual areas of specialization and allows students to either start their career or apply for a master's degree.

TECNOLOGÍAS Y HERRAMIENTAS

C++

Cursos & Autoformación

— Nanodegree Program C++, [Udacity](#)

ago 2021 — mar 2022 (8 meses)

— Full Stack Web Bootcamp, [KeepCoding®](#)

jun 2019 — feb 2020 (9 meses)

— PRINCE2® Foundation Certificate in Project Management, [QRP International](#)

may 2018 — may 2018

— Agile management and Scrum with Certification - Expert Level, [Technological Center of Information and Communication Technologies \(CENTIC\)](#)

dic 2015 — dic 2015

— Practical introduction to the ARM Cortex-M microcontrollers, [Polytechnic university of Valencia](#)

jul 2015 — jul 2015
